Friday 24<sup>th</sup> August 2012  
Friday 23<sup>rd</sup> November 2012

[www.cygnethealth.co.uk](http://www.cygnethealth.co.uk)

**Cygnet Hospital Beckton is now an all female hospital offering four distinct specialist services:**

- Female PICU
- Female Mental Illness (low secure)
- Female Learning Disability (locked)
- Female Personality Disorder (low secure and locked)

**We are hosting a series of open days throughout 2012 for new and existing NHS customers. you will have the opportunity to:**

- Meet with the teams and discuss the care pathways, transition and partnership working for the different patient groups
- Hear from other customers who have used the service
- Ask questions you may have about the services at the hospital
- Enjoy some light refreshments or stay for lunch

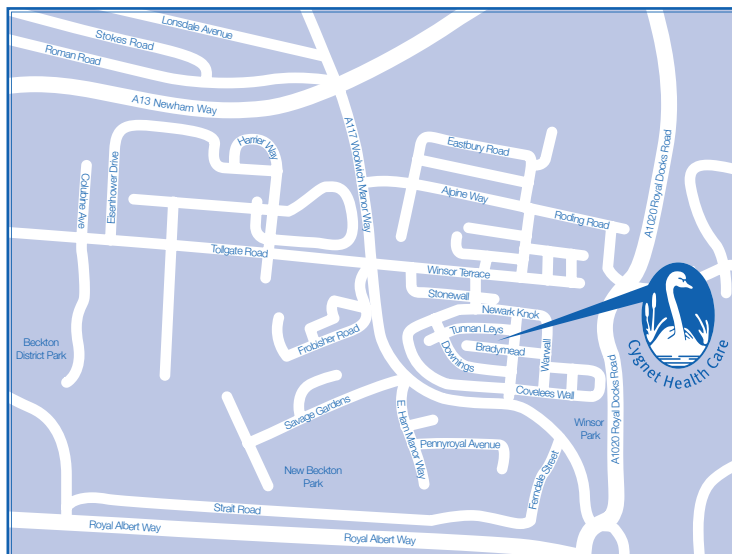

# How to find us

## Cygnets Hospital Beckton

23 Tunnan Leys, Beckton, E6 6ZB

Telephone 020 7511 2299

## Directions by car

The main road serving Cygnets Hospital Beckton is the A13 running east/west from Barking to the City. The **A117 Woolwich Manor Way** runs directly off the A13. Follow the signs for Beckton.

The clinic is located within the Windsor Park Estate. From the A13, take the A117 towards Beckton. Take the second turning on the left into **Windsor Terrace**. Continue along, taking the second right into Beaufort. Continue over the rail line, bearing right, then first left. The clinic is opposite.

## Directions by train

The clinic is a five minute walk from Beckton Station on the Docklands Light Railway. Do not confuse with Beckton Park. The DLR has a number of connections with the District and East London underground lines, together with the North London British Rail line.

To get to the hospital from Beckton Station exit and turn left. Take the footpath approximately 6 metres on your left which comes out on the corner of Newark Knok, then you continue to walk in the same direction up Newark Knok pass the turning for Downing and take the second turning on the right into Sudbury, with a green space on your left. The hospital is then directly in front of you.
