

# Specialist Residential Care Home for Adults with Learning Disabilities

## Caledonia House, Scotland

Mixed Gender

18+

16 beds

Caledonia House is a new residential care home with nursing in Hamilton. The service supports up to 16 adults with learning disabilities and complex needs. The team of nurses and support workers also support those with challenging behaviours, as well as those who have associated mental health needs.

The service delivers 24 hour care and support within a structured environment. Everyone has their own en-suite bedroom which they are encouraged to personalise to suit their own personal style. The service features a number of communal areas including lounge, dining room, sensory room as well as a family room for individuals to entertain their loved ones. Externally the building has extensive gardens which includes outdoor seating.

The individuals at Caledonia House may be stepping down from a hospital provision or they may need a more robust package of care than can be provided in a supported living service. Each resident receives an individualised care and support plan which is tailored to their own needs. This helps enable them to achieve successful community living and break any cycles of placement breakdown.

Situated in a beautiful location, this large 19<sup>th</sup> century detached building has some amazing views over the South Lanarkshire countryside, whilst also benefiting from being part of a small friendly community with local amenities.
